PROVIDING BETTER POWER

ROUGHNECK DIESEL: 40KW

The Roughneck generator was designed with rugged simplicity in mind: Three phase, open or enclosed packages that are designed for emergency applications but built with prime rated liquid-cooled engines that can run for extended periods of time during power outages.

Durable Industrial Engine

- Planned for emergency applications but built for industrial applications, the Roughneck's power plant is a premier fixed speed (1,800 RPM) engine built to provide strong, reliable power without sacrificing longevity and quiet operation.

Quality Clean Power

- Voltage regulation ensures that electronics are safely powered with less 2.5% total harmonic distortion (THD) at no load.

NFPA-110

- Wildcat designed the Roughneck to exceed NFPA-110, Level 2 Emergency Power Supply Systems (EPSS) by providing prime power (PP) to meet EPSS Class 168 Type 10.

Digital Controls

- Designed for single genset applications, the Roughneck's digital controls monitor the genset's voltage, current, power, frequency, engine speed, oil pressure and coolant temperature on a back-lit LCD display for ease of use.

Industrial Class Alternator

- Protected with Class H insulation and standard 40°C nominal rating, the Roughneck's standard 12-wire winding and 2/3 pitch meet all key international standards and regulations including UL 1446.

Easy to Service

- Preventative maintenance and in-field repairs are made easier with our simplified engineering and non-proprietary parts.
